Electrician

Description

We are seeking a skilled and dependable **Electrician** to join our team. The ideal candidate will be responsible for installing, maintaining, and repairing electrical systems and equipment in residential, commercial, or industrial settings. You must be safety-conscious, technically proficient, and able to work independently or as part of a team.

Responsibilities

- Install, inspect, and repair wiring, lighting systems, circuit breakers, and other electrical components.
- Read blueprints, technical diagrams, and follow local building codes.
- Troubleshoot electrical problems and ensure timely and effective solutions.
- Perform regular maintenance checks to prevent system failure.
- Ensure compliance with safety regulations and electrical codes.
- Collaborate with construction and maintenance teams as needed.
- Prepare and maintain records of work performed.

Qualifications

- Proven experience as an electrician (minimum 1 year).
- Relevant electrical certification or diploma from a recognized institution.
- Valid electrician license (if required in your area).
- Strong knowledge of electrical systems, tools, and best practices.
- Ability to read and interpret technical drawings and schematics.
- Good problem-solving skills and attention to detail.
- Physically fit and able to work in various environments (indoor/outdoor).
